

THE DRINKS LIST

It's with the greatest pleasure that this list is honed. First, there are the tastings with our brilliant and various suppliers. This is where we all swirl our glasses and position our noses, smelling deep and looking a bit silly, searching for flavours, prompting memories that will help us to recall what we think of this wine and why we have included it on the list for you to drink here today.

These tastings are a cheerful business, seriousness from some, it's quite right that we know the gradient of a vineyard, or its correlation to the sun, the antiquity of the barrels or foudres and hear of the maverick makers eschewing rules and breaking norms. Largely though, we are all wide-eyed and terrific energy, the wines coming in and off the list with nerve-jangling-excitement.

Throughout our list, you'll find indicated by a 🌿 are our vegan wines, beers & ciders.

Sit back, drink up and please raise your hand if we can help you in any way.
