

The Station Express

THERE'S SOMETHING FOR EVERYONE...

Our talented chefs have dedicated their time to create a menu for all dietary requirements, whether you're vegan, gluten free or dairy free, we have something for everyone. *Don't delay, order today!*

We pride ourselves on being one of the most unique places to eat and drink on the Isle of Wight; set along the old railway line ("Causeway") in Yarmouth's former train station,

the restaurant overlooks the outstanding natural beauty of the Yarmouth Marshes and Mill Copse. There is no other view like ours in Yarmouth. Being located along the Causeway

makes it the perfect pit stop for walkers, cyclists and those visiting the Isle of Wight as the restaurant is just a 5 minute stroll from the Yarmouth Wightlink Ferry terminal.

COFFEE LOVERS

Here at Off The Rails, we take our coffee very seriously

Part of the speciality coffee tradition, we combine the finest beans Tierra Selection 100% Arabica from Lavazza and the latest technology to produce a special coffee experience, each and every time you visit us. The blend is a medium/dark roast of South American, African & Indonesian beans that produce a complex bittersweet cup full of body and aroma. The flavours from this coffee are familiar to walnuts, smoke, red berries and dark cocoa allowing more delicate flavours to come through; and we make sure the milk is never burnt, so the sweetness remains in your cup.

The microfoam needed for our milky based coffees is produced by introducing the steam so it swirls the milk in the pitcher and getting the milk hot, but not scalding (64.5°). This temperature is also important as it's when the sugars begin to be released making the milk sweeter so you shouldn't need extra sugar in your coffee as the coffee is not bitter and the milk is sweeter.

Thank you and enjoy!

YARMOUTH STATION

Yarmouth Station was constructed as part of the Freshwater Yarmouth Newport Railway in the early 1880's, and the first train ran from here on 20th July 1889. The railway line never connected with the Lymington ferry, and as a result all coal, livestock and passengers had to be transported down the backstreets of Yarmouth to get to the train. There was another platform on the south side of the tracks, but because of the river opposite the actual station, it was built 100 yards down the track towards Newport.

The FYN railway never really made any money (one year's accounts show a profit of £6 for the whole year!), it was taken over by the Isle of Wight Central Railway in 1923, and managed by Southern Railways. Ten years before the infamous Beeching cuts, the line closed forever on 20th September 1953. The station remained empty for many years until about 1960, when an old wooden barracks hut was bought for £1000, brought to site and attached to the east end of the old station. For the next 50 years the whole building was used as a meeting hall and became the Yarmouth Youth Club.

The building was sold by the Council in 2010, the wooden hut was demolished to make way for a larger reconstruction of the original station. The signal box was added, and the whole building given a Southern Railway theme. "Off The Rails" restaurant opened in August 2014, and the old station has been given a new lease of life welcoming walkers, cyclists, birdwatchers, tourists and locals to the area.
